## EDUCATION

### Dr. A.P.J. Abdul Kalam Technical University

*B.Tech in Computer Science Engineering (AI & ML)*

Lucknow, UP, India

Aug. 2025 – Aug. 2029

- **KCC Institute of Technology and Management**, Greater Noida (Affiliated College)
- **Current GPA:** 8.05 / 10.0

## PROJECTS

### KSP M.A.P.S. | [GitHub](#) | Python, XGBoost, PostgreSQL, Machine Learning

Aug. 2026

- Engineered an ML powered spatial analytics platform exclusively for police forces featuring real-time semantic M.O. matching, ST-DBSCAN crime clustering, and XGBoost hotspot prediction.
- Achieved sub-50ms prediction latency and 100% offline uptime via a decoupled microservice architecture, built for state-wide law enforcement deployment.

### SightX | [GitHub](#) | Python, YOLOv8, SQLite, Machine Learning, Deep Learning

Mar. 2026

- Developed a real-time crowd surveillance system utilizing YOLOv8 and deep learning to automate violent activity detection and dynamic video overlays.
- Delivered high-confidence threat identification coupled with optimized SQLite logging, significantly streamlining incident tracking and response times.

### SignVise | [GitHub](#) | Python, Mediapipe, OpenCV, Pyttsx3, Machine Learning

Feb. 2026

- Built a computer vision framework featuring a touchless virtual mouse and an ASL-to-speech translator to empower speech and hearing-impaired individuals.
- Enhanced digital accessibility and safety by integrating an interactive gamified education module alongside a reliable 5-second sustained gesture emergency SOS system.

## HACKATHONS & ACHIEVEMENTS

### HackIndia Spark 4 2026 (NCR East)

Greater Noida, India

*Project: SightX*

Mar. 2026

- Qualified for the 36-hour offline hackathon from a pool of 1,000+ national registrants following a rigorous online elimination phase.
- Rapidly engineered, debugged, and pitched a production-ready software application to a panel of industry mentors during an intensive development sprint.

### Cybrathon & Aestr Alpha AI Summit 2026

Jaipur, India

*Project: SignVise*

Feb. 2026

- Competed in a national-level AI and Machine Learning hackathon hosted by Suresh Gyan Vihar University.
- Advanced through initial ideation screenings to architect, build, and present operational software prototypes under competitive evaluation.

### National Tech Expo 2026

Gujarat, India

*Project: SignVise*

Feb. 2026

- Selected to exhibit emerging technical solutions at Parul University's national technology exposition alongside top student innovators.
- Presented and defended project architecture, system scalability, and implementation methodologies to a panel of industry experts.

## TECHNICAL SKILLS & CORE COMPETENCIES

**Programming Languages:** Python, C++, C, SQL (MySQL, SQLite)

**ML & Computer Vision:** PyTorch, TensorFlow, Scikit-Learn, OpenCV, MediaPipe

**Data Science & Analytics:** Pandas, NumPy, Matplotlib, Power BI

**Professional Competencies:** Technical Research, Cross-Functional Leadership, Public Speaking, Strategic Communication

**Spoken Languages:** English (Fluent), Hindi (Native)
